2012-09 - 2015-05

Master of Arts: Sociology

Tartu University - Tartu

2007-09 - 2011-05

Bachelor of Arts: Sociology

Tartu University

Software

I have learned to use many different software packages for different types of data analysis. I especially enjoy using and learning new opportunities in R because of its endless possibilities. Tableau is also great for visualizing data and creating gripping dashboards. I feel I am a fast learner in adapting to new software and am always focused on getting the best end result.
